Landscape Contractors & Designers review in Calgary

4 months ago

We are very, very satisfied with the major landscape project we just completed with Almac. Working with them exceeded expectations from start to finish. Alan was very detailed in his landscape design which involved a new front walkway and steps and flower beds and a large patio and new steps in the back. He made multiple visits and made sure we were happy with his drawing and then incorporated a few changes we wanted. His crew, especially foreman George, were amazing. Their attention to detail and quality was just as promised. They were respectful, very hard working but never rushed anything and our neighbours have made multiple positive comments about how clean and quiet the worksite was considering all we have going on. I would highly, highly recommend Almac and we'll be using them again next year to finish our major overhaul. They were not inexpensive I'll admit, but worth every cent.

Company Response

Thank you John for the review and kind words. The deck, patio, walkway, window wells, slate steps and planters look fantastic. The crew is excited to come back next year to complete the second phase of your project. Thanks again for the hospitality, the soft drinks were welcomed on those hot days. All the best.
