Landscape Contractors & Designers review In Calgary

4 months ago

We have now worked with Alan and his team on two home landscaping projects. We have been greatly satisfied on each project.

On our old house we did both the back and front yard landscaping including retaining walls, flower beds, patios, deck, pergola, and privacy screen (some of the pictures are posted in the picture gallery). Our backyard turned out to be a real retreat!

For our new house we completed the front yard this year, which turned out great! We plan to do the backyard retreat next year.

We think one of the best things about Almac Landscaping is that Alan's crew is the same crew he had when he did our first house (probably 8 years ago). They are all great guys, with great ideas and experience. All are very professional, arrive early every day and work hard all day. There is no wondering if a crew is going to show up that day, or wondering if they are going to finish on schedule. In this case you definitely get what you pay for - an experienced crew who show up every day and get the job done, and it looks amazing!

We have had experiences in the past where you can pay less, but some guy shows up once in a while and works a few hours and you don't know when they are coming back. In the end it takes months to get a job done. Or you have to find someone else to finish the job. You will not get this with Almac Landscaping! No worry or hassle...
